# Teaching to Learning

# Learning as Network

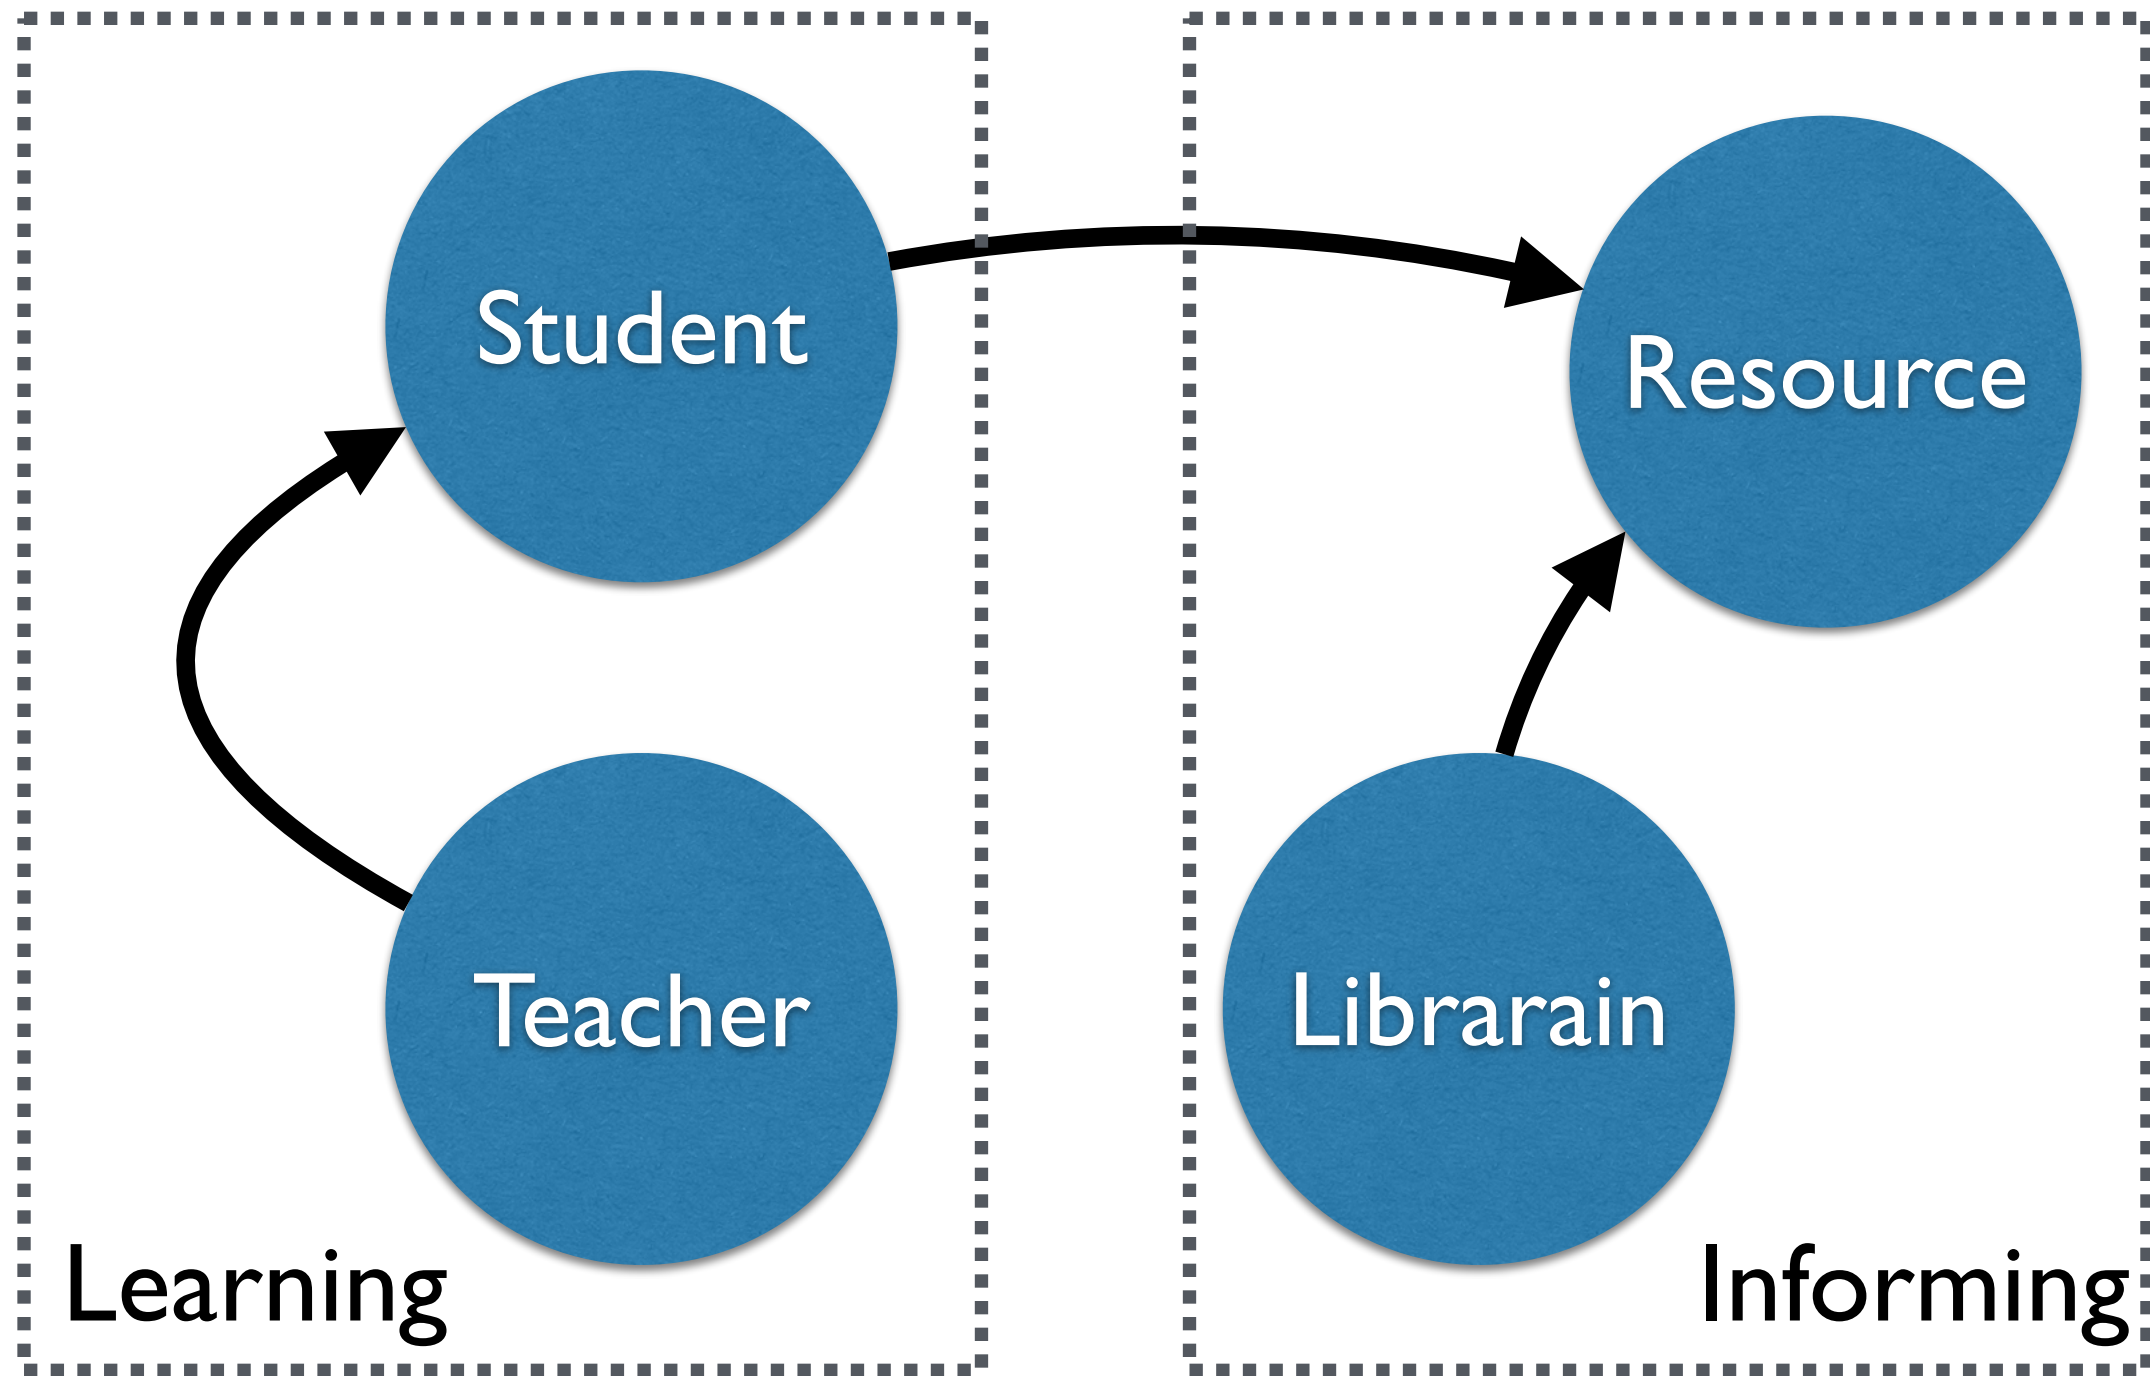

Learning is Knowledge Creation

# Shift of Agency

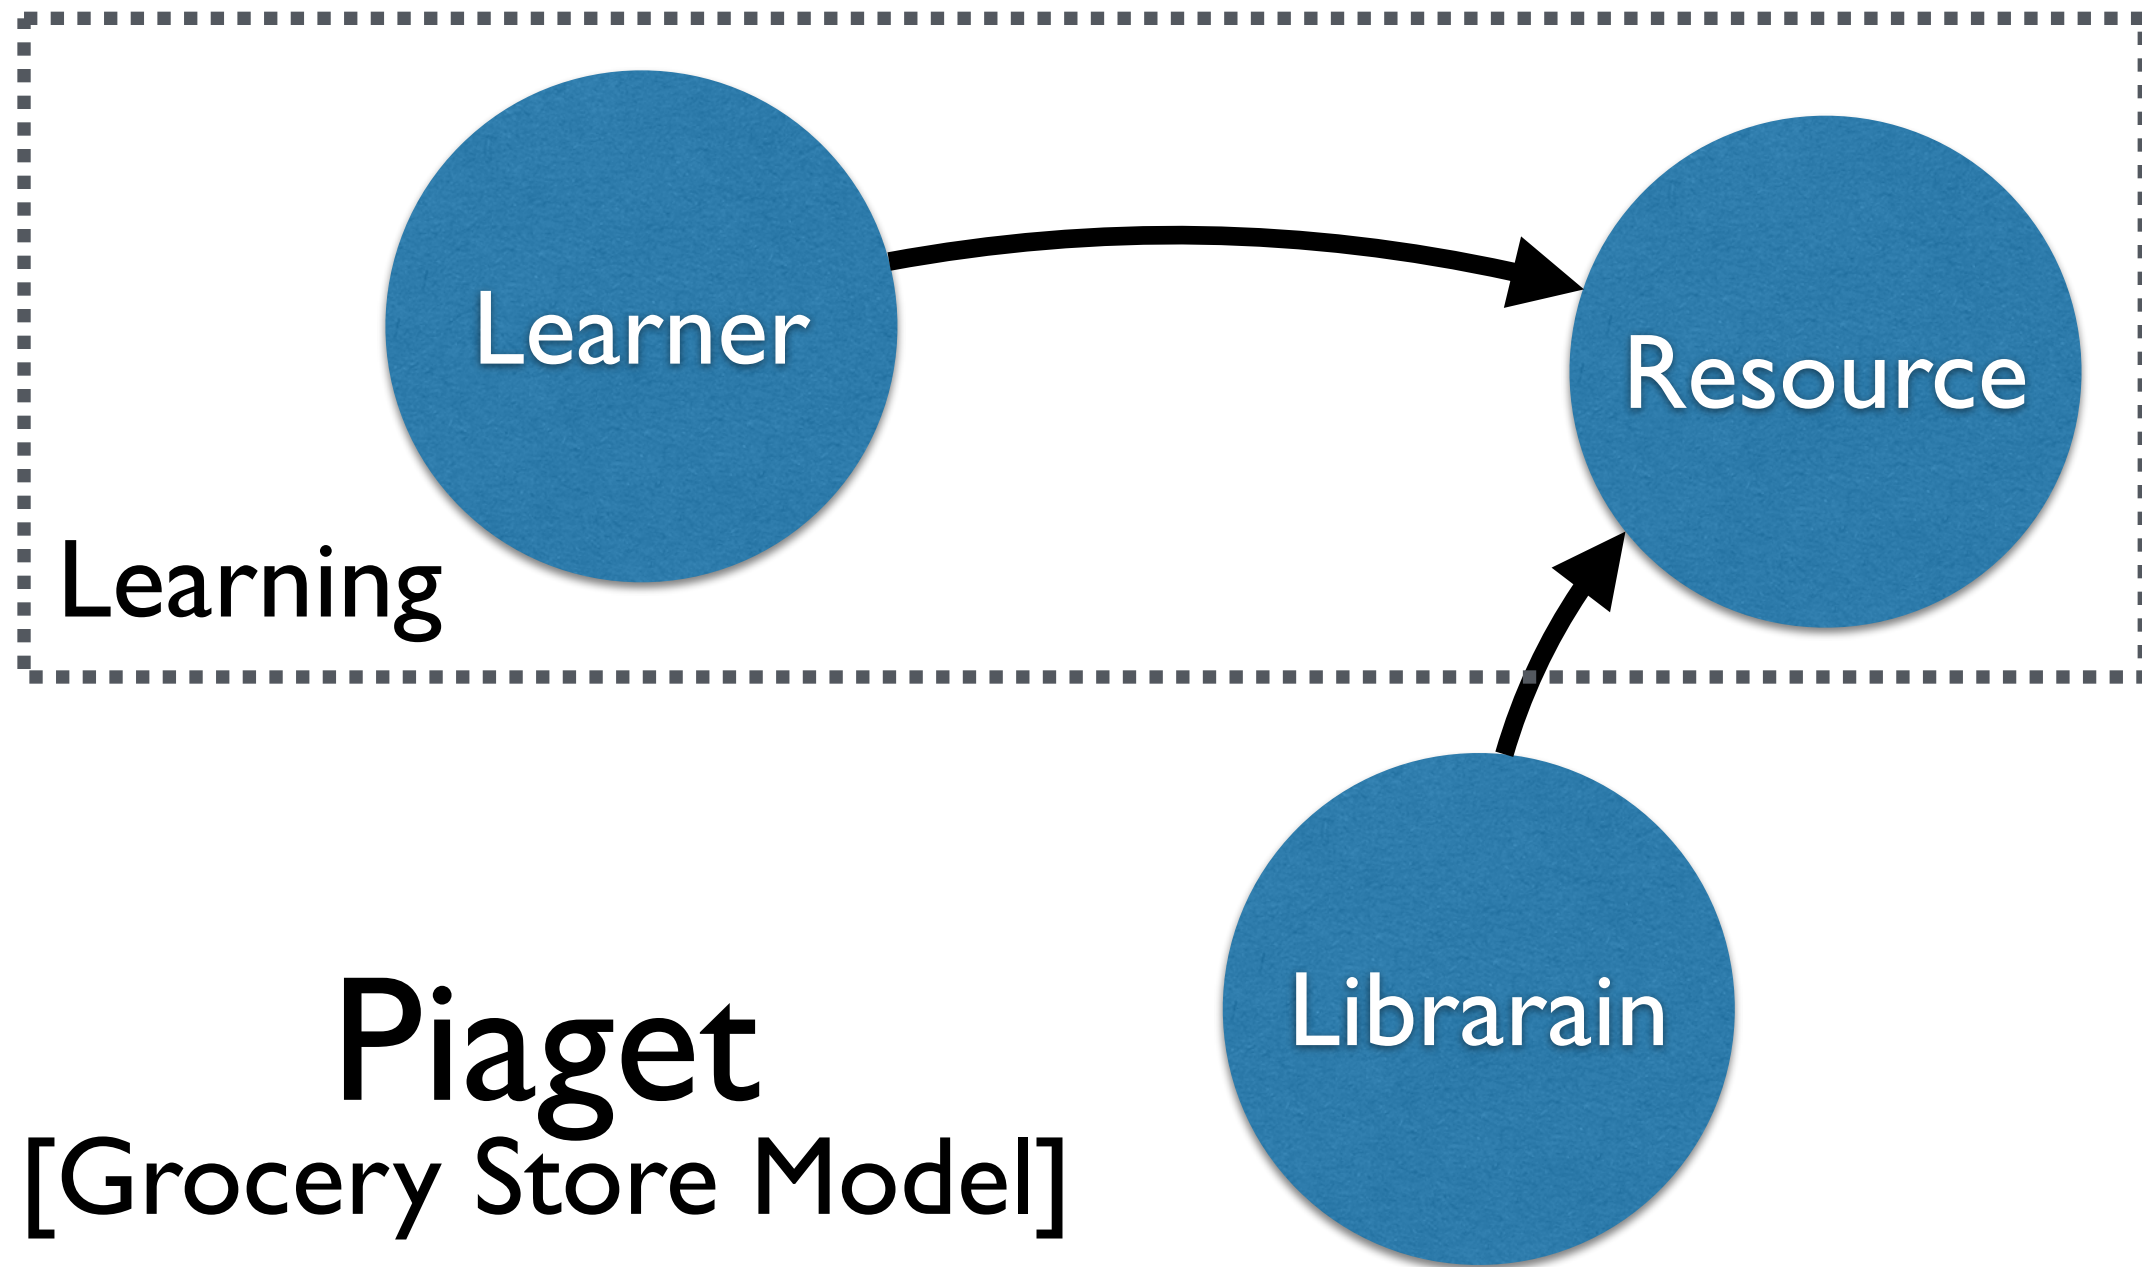

- Learning: From Teacher to Student
- Medicine: From Disease to Health
- Credibility: From Authority to Reliability
- Librarianship: From Information to Knowledge
- Librarianship: From Library to Librarian

# Library & Learning

# Library & Learning

# Library Model

- Library Adjunct to Learning
- Librarian Works in “Information”
- Bibliographic Instruction
- Learners=Customers, Consumers, Users

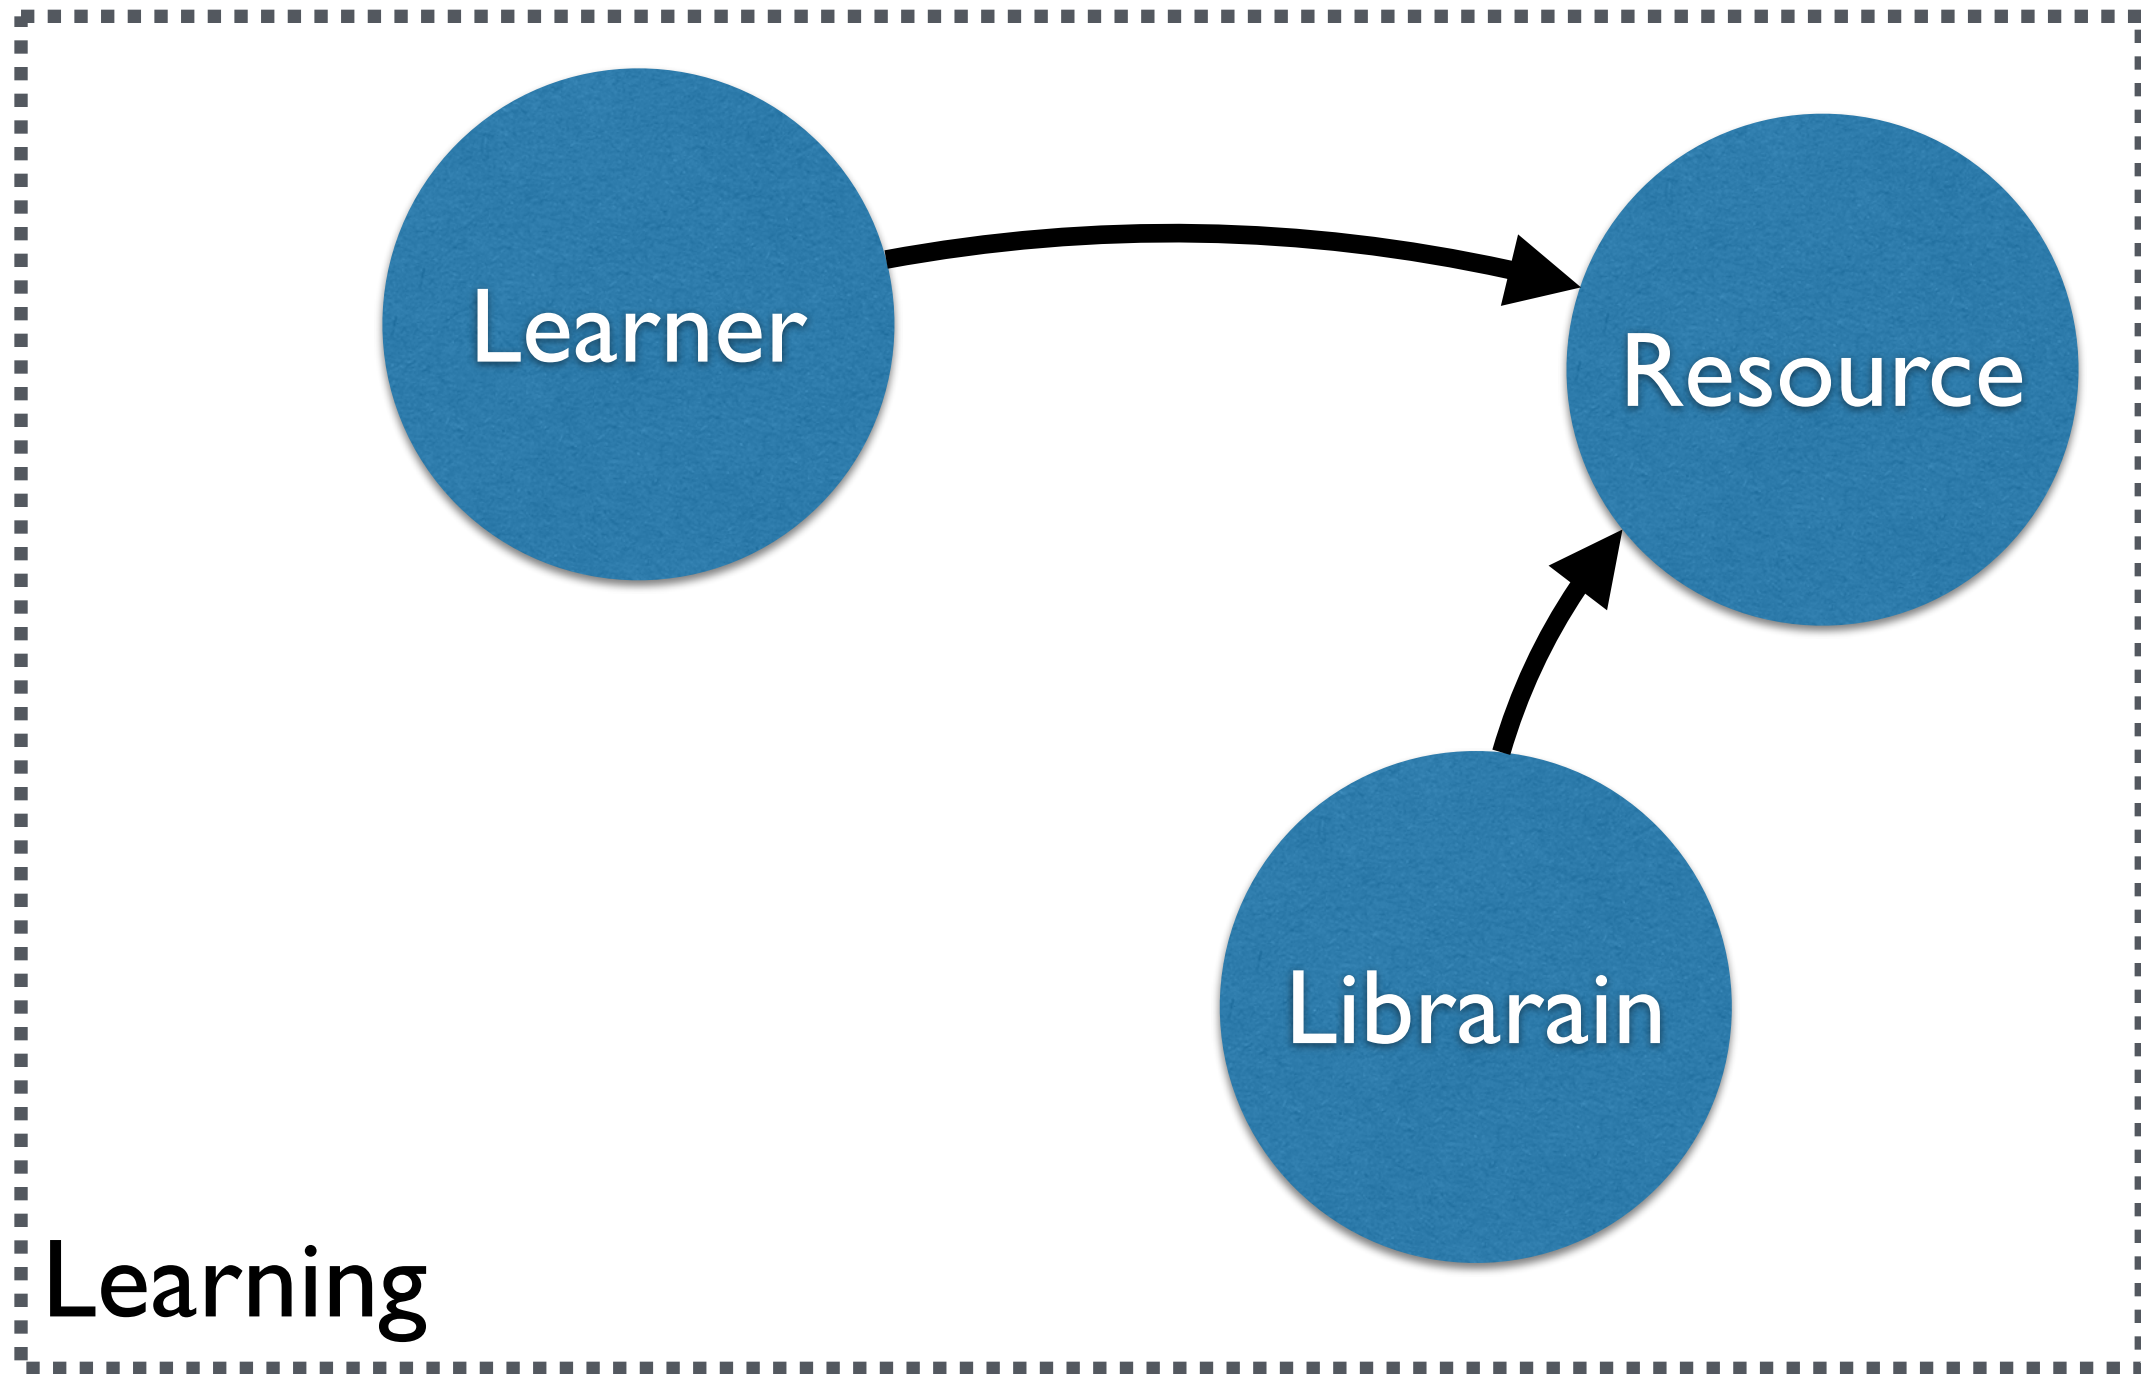

# From Library to Librarian

# Introduction of Instruction

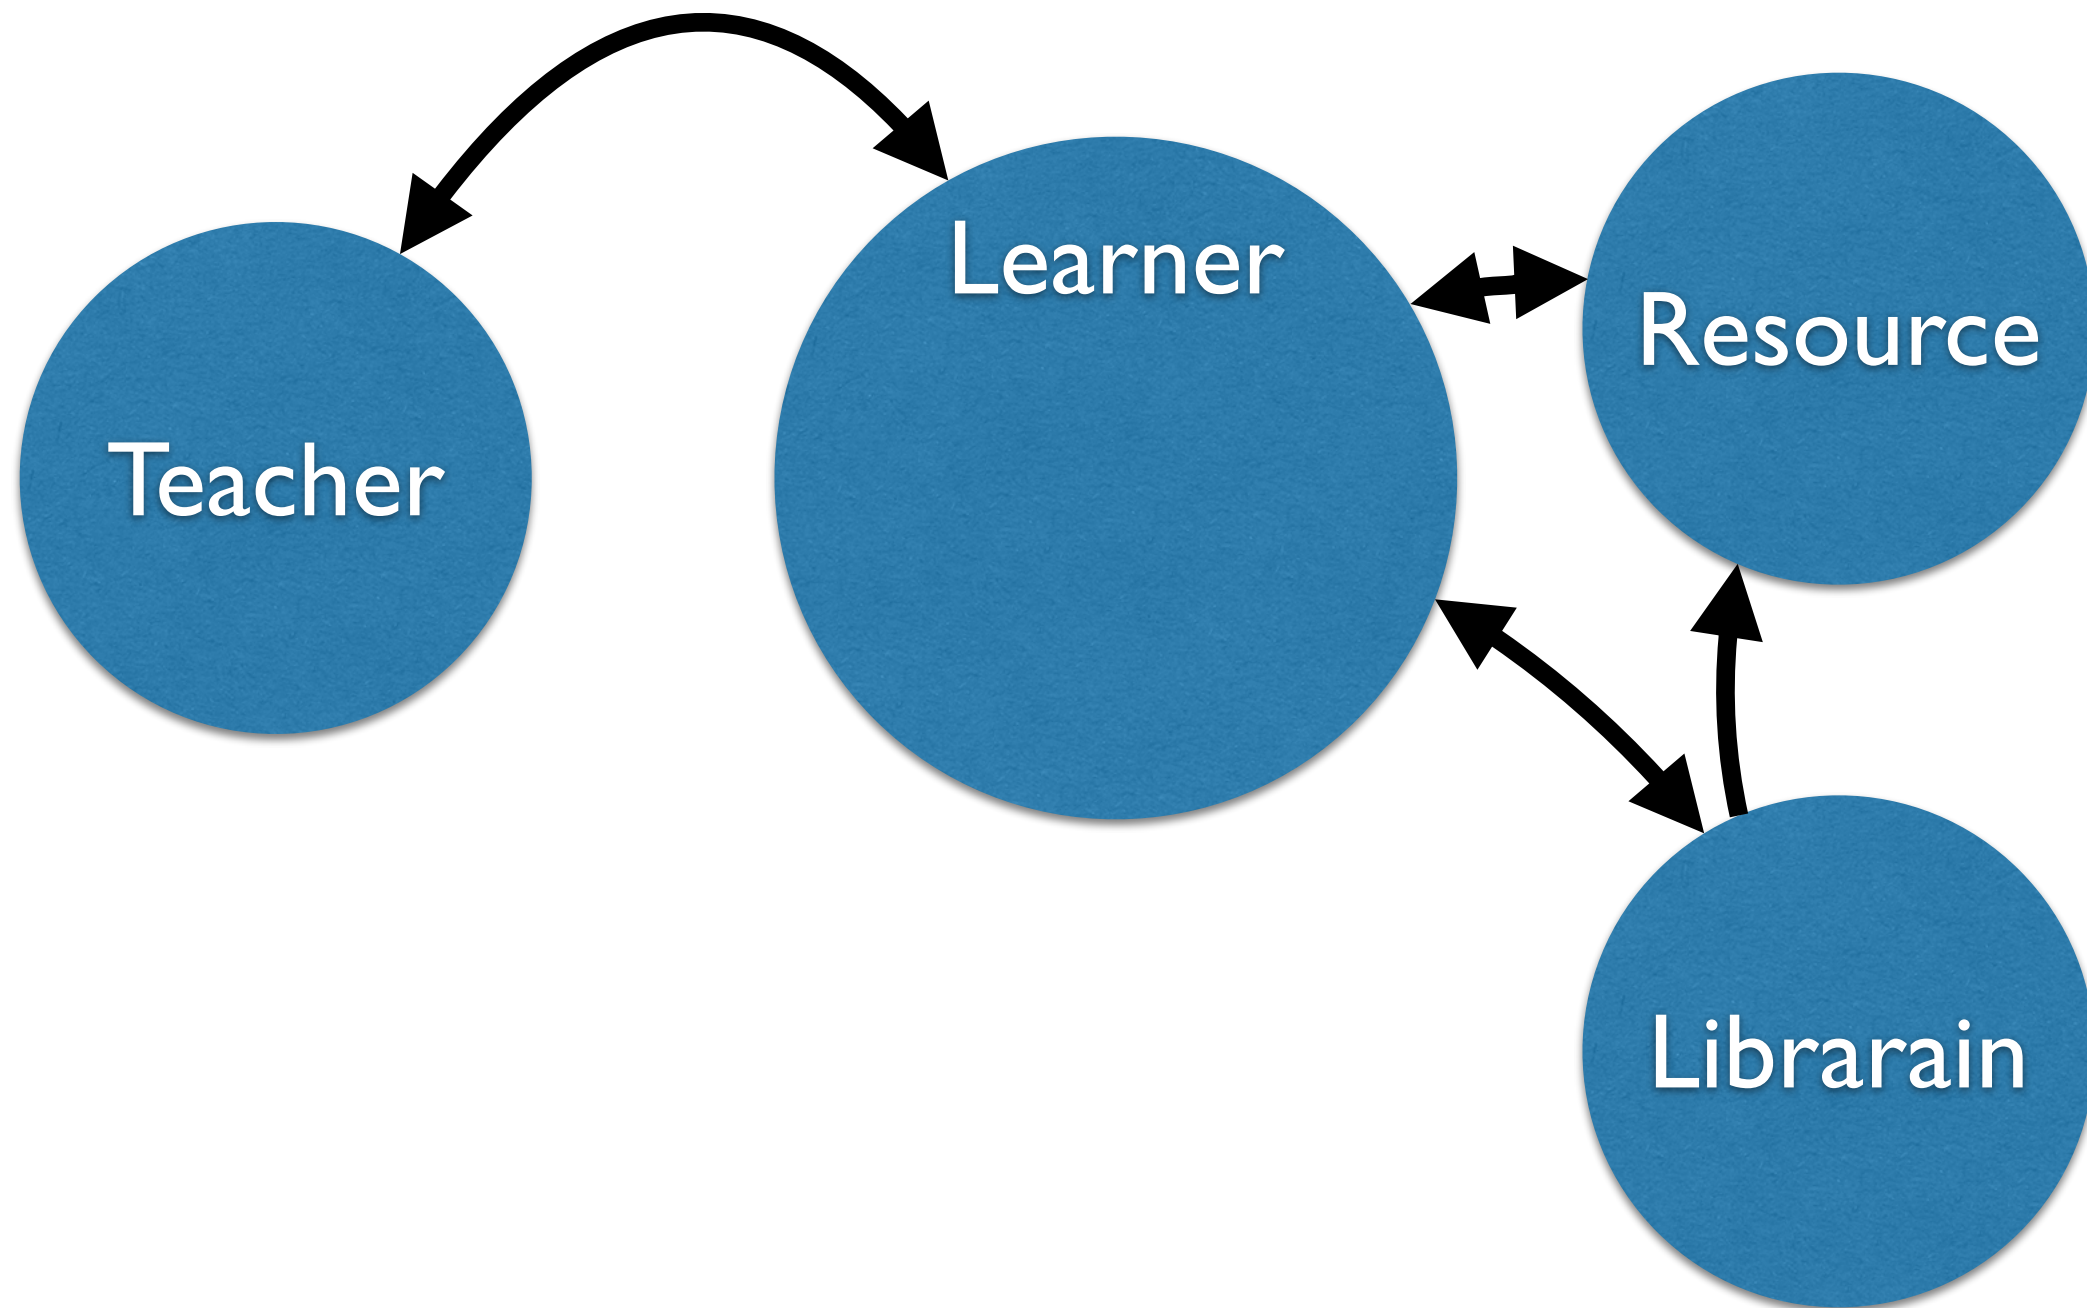

- School Libraries: Information Literacy
- Academic Libraries: Instructional Librarians
- Public Libraries: Classes and Workshops

Q1: Tell me everything about  
women in ancient Rome

Q2: Tell me everything about  
women in ancient Rome”

# Everything is Learning

- Reference
  - From Catalog Support to Searching Support to Targeted Instruction
- Information Literacy
  - From Bibliographic Instruction to General Information to Inquiry Driven Learning
- Collection Development
  - From Artifact Organization to Discovery to Learning Objects

# Librarian Model

- Librarian Facilitator or Learning
- Librarian Works in “Knowledge”
- Knowledge Creation
- Learners=Members, Learners, Makers, Creators

# Facilitators of Knowledge Creation

- Access: Learning Happens Through Conversation
- Knowledge: Knowledge is Human and Unique
- Environment: The Best Learning Happens in the Richest Environments
- Motivation: Learning Only Happens in the Presence of Intrinsic Motivation

# Why Shift?

- Our Communities NEED Places of Learning
  - Schools to Restrictive (age, money, structured curricula)
- Knowledge Creation Key to a Democracy
  - Current Events, Cultural Heritage, Technology
- Continuous Learning Key to a Vibrant Economy

# Communities Need Us

- Learning Happens Everywhere
- Learners Need a TRUSTED Guide
- Learning is Beyond School
