# The Truth of the Maker Movement

“According to a survey conducted by Maker Media, **8 out of 10 Makers are male. Their median age is 44. Their average household income is \$106,000. Nearly 83 percent are employed, and 31 percent have job descriptions that fall into scientific or engineering categories. 97 percent are college graduates and 80 percent have some post-graduate education.**”

“Much of this frenzy of access is facilitated by mobile devices. Nearly three-quarters of teens have or have access to a smartphone and 30% have a basic phone, while just 12% of teens 13 to 17 say they have no cell phone of any type. African-American teens are the most likely of any group of teens to have a smartphone, with 85% having access to one, compared with 71% of both white and Hispanic teens.”

- There Is No App To Overcome The Barriers Of Race, Class, Sexual Orientation, And Gender, And App Building Won't Either
- The Children Of Ferguson Were Hungry And Librarians Fed Them
- The Parents Of Baltimore Were Without Diapers And The Librarians Provided Them
- Public Libraries Were Created Out Of A Quest For Societal Equality - Any Innovation Initiative Must Further This Cause Or Libraries Simply Become An Agency Of Elite Solutions Not Agents Of Change

# Librarianship ≠ Obsolescence

- Librarianship Is Not Dying, It Has Lost It's Monopoly
- Not It's Value, Importance, Or Future
- Opportunity Inject The Values Of Librarianship Into The Larger Domain
