Library Response?

When modern culture admitted that there were many important things that it still did not know, and when that admission of ignorance was married to the idea that scientific discoveries could give us new powers, people began suspecting that real progress might be possible after all. As science began to solve one unsolvable problem after another, many became convinced that humankind could overcome any and every problem by acquiring and applying new knowledge. Poverty, sickness, wars, famines, old age and death itself were not the inevitable fate of humankind. They were simply the fruits of our ignorance.

Harari, Yuval Noah (2015). Sapiens: A Brief History of Humankind (pp. 264-265).
HarperCollins.

RETURN SERVICE REQUESTED

DEAR JOHN,

Attached is your new Will County Voter Registration Card. By law, we are required to issue a new card to each registered voter every two years. This card replaces all previously issued cards and has your current name and address. It also lists your township, precinct, polling place and the units of government for which you are entitled to vote. **Please look at this information very closely. It may have changed due to redistricting resulting from the 2010 census.**

While you are always welcome to vote at your polling place on Election Day, we strongly encourage you to vote early at the Will County Clerk's Office or another designated early voting site or to request an absentee ballot. Learn more by visiting our web site at www.thewillcountyclerk.com.

Prior to each election, we will mail you a Voter Information Guide which will include a sample ballot and other helpful facts.

As always, we encourage you to exercise your right to vote at every election!

Sincerely,

Nancy Schultz Voots
