TLA Launches Texans for the Right to Read, Statewide Coalition Opposed to Book Banning

The Texas Library Association (TLA) has launched a grassroots coalition, Texans for the Right to Read, to amplify and unify the voices of librarians, educators, parents, students, authors, and others who oppose widespread, coordinated efforts to apply subjective criteria in order to ban books across the state.

TLA believes that individuals have the right to free inquiry and the equally important right to form their own opinions. Freedom in selecting materials is a necessary safeguard to the freedom to read and must be protected against irresponsible attempts by self-appointed censors to abridge it.

The new coalition aims to inform and organize Texans who oppose efforts to ban books.
